Remove unwanted elements like magic!

Tired of taking pictures with all those unwanted background images? Have you ever wanted to just get rid of that sign behind your or those people walking by? Well now you can erase anything in your picture that you don't want there with Photo Eraser for PC. All you need to do is decide which image you want to erase, select it, and click! If there are any slight marks left behind, use the clone tool to blend the colours back in for smooth, seamless appearance. No one will ever know you erased anything and you will have that perfect picture you were trying to capture in the first place.
